JAN 3 - 1922

THE CITY OF TORONTO.

The City of Toronto is situated on the northern shore of Lake Ontario, nearly due north from the mouth of the Niagara River. It lies on a plateau gradually ascending from the Lake Shore to a height of 220 feet, and covers an area (not including land covered by water) of about thirty-two square miles. Its altitude is 300 feet above sea level. It is generally level with slight depressions at points where minor water courses formerly existed. The harbor in front of the City (approximately a square mile in area) is formed by an island lying to the south of it.

The name of the City is of Indian origin, meaning "a place of meeting," the site in early times being a rendezvous for Indian tribes for council or war-like expedition. It first appears as a centre of trade in 1749, when the French built a fort and started a small trading settlement under the name of Fort Rouille. Its occupancy, however, was not long undisturbed, as British traders appeared soon from the south, and in the war between France and England the fort was burned in order to prevent English occupation in 1759.

Governor Simcoe chose the site of the City for the Capital of the Province of Upper Canada, and changed the name to York in honor of the Duke of York, son of the then King George III. The town was occupied by the U. S.

forces in 1813, and the Legislative Assembly buildings and archives were burned. Self-government was granted in 1817; and in 1834, the population having increased to 9,000, it was incorporated as the City of Toronto.

Since then its progress has been rapid and substantial. The population up to the outbreak of the war having doubled practically every fifteen years since incorporation. The City is noted for its many fine public and other buildings, its parks and splendid shade trees. It is the Capital of Ontario, the business of the Province being carried on in the Parliament Buildings, a magnificent brown stone structure, beautifully situated in Queen's Park.

As a location for manufacturing and commercial establishments the City possesses many advantages for the production of almost every class of goods. Its growth in every direction has been so noticeable that little need be said to prove its claim of having the most favorable conditions for the production and distribution of goods. It has water communication east and west to many important centres, to tide water and to more than one-half the way across the continent, and has railways to provide exceptional trade handling facilities. In addition to the foregoing advantages, the City is now in a position to offer to manufacturers cheap electric power from Niagara Falls.

The government of the City is vested in a Municipal Council, consisting of the Mayor

and four members, forming the Board of Control (all five being elected annually by the citizens at large), and twenty-four Aldermen, three being elected annually from each of the eight Wards into which the city is divided. The Council as a whole is the legislative body of the municipality, and carries on its legislative work through standing committees in the usual way. The Board of Control is the executive body, and as such is responsible for the preparation of the annual estimates and the supervision of matters relating to finance, the appointment of officials, the carrying on of public works authorized by the Council, and the general administration of the affairs of the City, except as to the Departments of Education and Police, the first being under the control of a Board of Education, elected by the citizens, and the latter under the Board of Police Commissioners, which consists of the Mayor for the time being, the County Judge and the Police Magistrate.

The Court also sits from time to time throughout the year to hear appeals in respect of local improvement works.

All appeals for reduction of taxes either on buildings in consequence of vacancy, or for any other cause, should be filed with the City Clerk.

The City Clerk is the Clerk of the Court.

CITY HALL

The City Hall, situated on Queen Street, between James and Terauley Streets, is a massive stone structure, and contains accommodation for the Council and Officers of the Municipality, and for the Courts of Justice (including the Police Court) and the various Judicial Officers connected therewith.

The site, expropriated in 1884, was originally intended for Court House purposes only, but it was subsequently decided to erect a combined City Hall and Court House thereon. The corner stone was laid on the 21st day of November, 1891, by the then Mayor, the late Edward F. Clarke, and the building was formally opened for public business on the 18th September, 1899, by the late John Shaw, who was Mayor of the City for that year.

City Hall—*Continued*

In the tower of the building is a massive clock of British manufacture (the largest winding clock on the continent), and three bells, which are used for striking the quarter hours, half hours and the hours.

The dimensions, cost, etc., of the building are as follows:

Frontage	289 feet
Depth	283 feet
Circumference	1,328 feet
Total floor space	5.40 acres
Height of tower from sidewalk	300 feet
Diameter of clock face	20 feet

Weight of bells: smallest (quarter bell), 1,904 pounds; next largest (quarter bell),3,339 pounds; largest (hour bell), 11,648 pounds.

The total cost (including site, clock, bells, and furniture), did not exceed $2,500,000.

Births, Marriages and Deaths

The number of births, marriages and deaths in the City of Toronto during the year 1918, as shown by the Registration returns is as follows:

Births	12,195
Marriages	4,960
Deaths	8,136

All births and marriages must be registered at the City Clerk's Office, City Hall, within 30 days from the occurrence thereof.

Deaths must be registered at the same office before a permit to bury can issue.

Physicians attending are required to send in notices of births, and parents, or occupants of dwellings where births occur, are required to register same.

Clergymen officiating are required to register marriages.

Physicians attending are required to certify as to deaths.

Neglect or failure to send in notice in either case renders parties liable to a fine not exceeding $10 and costs.

Public Health

The general death rate of the City in 1918, exclusive of still births, was 15.5 per thousand of the population as returned by the assessors.

If the death rate from influenza and pneumonia subsequent to the outbreak of the epidemic are deducted, the general death rate becomes 11.4.

The typhoid fever death rate was 2.9 per hundred thousand population. The death rates from scarlet fever and diphtheria were respectively 6.7 and 19.8 per hundred thousand, and that for tuberculosis (including 184 deaths of Toronto people in sanitoriums outside the City) was 112 per hundred thousand.

The public hospitals in the City are located as follows:

Toronto General Hospital, College Street.
St. Michael's Hospital, Bond Street.
Sick Children's Hospital, College Street.
Western Hospital, Bathurst Street.
Grace Hospital, College and Huron Streets.
St. John's Hospital, Major Street.
Women's Hospital, Rusholme Road.
Riverdale Isolation Hospital for Contagious Diseases, Gerrard Street East.

The ordinary ambulances for cases of non-contagious diseases are under the control of the Police, and answer to the call of "Main 222." The ambulance for cases of contagious diseases is in connection with the Health Department, and answers to "Main 2729."

In all complaints as to nuisances dangerous to public health—drop a post card to the Department of Public Health.

Public Health—*Continued.*

In case of accident, the patient, if of adult age and conscious, has the right to state to what hospital or where he wishes to be taken. In cases of children, or those in an unconscious condition, the medical attendant, and in cases where there is no medical attendant, the Police are supposed to direct the ambulance.

In cases where a person is found dead and no medical man has been in attendance, a coroner should be notified, who has authority to issue a warrant to bury after view, or order an inquest, as he may deem necessary.

Note.—The amount of taxes raised as above set forth may not balance with the amount found by calculating the mill rate on the assessment for any given year. The difference arises from the fact that a portion of the assessment is liable for school rates only.

*These rates include the Provincial War Tax of 1 mill on the dollar.

Payment of Taxes

Taxes for 1919 are payable as follows:

1st instalment, June 6th.

2nd instalment, August 6th.

3rd instalment, October 6th.

Rates for Gas

The rate for gas for all purposes is $1.00 per 1,000 cubic feet. Accounts are rendered monthly, and must be paid within ten days to secure this rate.

Local Improvement Works

When the owners of property on any street or lane desire a sewer, sidewalk, pavement or curbing, or when the property owners in any locality desire the opening, widening, extension or diversion of any street or lane, application should be made to the Works Department for a form of petition to the Council for the work or improvement. When such petition is signed by two-thirds in number of the owners representing one-half in value of the property to be benefited by the work or improvement, the Council may proceed therewith and assess the cost against the property benefited.

If the names of two-thirds in number of the property owners representing one-half in value of the property cannot be obtained, the petition may nevertheless be presented, and if the Council, on the recommendation of the Commissioner of Works, finds that the work is necessary, and in the public interest, it may direct that it be proceeded with, unless a majority of the property owners interested representing at least one-half of the value of the property to be assessed petition against the proposed work or improvement within a month after the Council gives notice of its intention to proceed with such work.

Notwithstanding any petition to the contrary, the Council, if it deems the same necessary in the public interest, and by a two-thirds vote of the whole Council, may proceed with any of

the above-mentioned works and assess the cost thereof against the property benefited.

In previous editions of this book schedules were included showing the approximate cost of local improvement works. These schedules have been omitted this year, owing to the impossibility of submitting accurate figures, on account of the continued rise in the price of labor and material. The Works Department, however, will furnish an estimate as to the cost of any work upon application being made therefor by property owners interested.

Fire Alarm Telegraph.

Number of Fire Alarm Signal Boxes	482
" " High Pressure " "	46

Directions to Give an Alarm.

Break the glass, unlock the signal box door and pull the brass hook on the inside door all the way down (once only) and let it go, and if you do not hear the alarm sound in less than fifteen seconds, go to the next nearest box to the fire and do as before directed. The hook should not be pulled while the alarm is being sounded from some other box, nor before the expiration of at least thirty seconds after the alarm has ceased. No alarm should be given for a chimney only on fire, and no box should be pulled more than once for the same fire, except by an officer of the Fire Department.

Never open the box or touch the hook except in case of fire.

Never give an alarm except from the box nearest the fire, unless you have first ascertained that the box nearest the fire will not work.

Do not try to take the Key out of the door as it is "locked in" and cannot be taken out without a relief key.

O. 1914) composed of the Mayor of the City and eigh others, three of whom are appointed by the Cit Council, three by the Board of Education, an two by the Separate School Board. The per sons appointed by the City Council and Boar of Education hold office for three years, an those by the Separate School Board for tw years. These members retire in rotation a the end of their respective terms on the 31s of January.

PUBLIC LIBRARIES—*Continued.*

The Board holds its regular meetings on the second Friday of each month, and the Libraries and Finance Committee meets on the next preceding Tuesday.

The Libraries are maintained by a tax not to exceed a quarter of a mill on the assessable property in the City.

The Reference Library is situated at the corner of St. George and College Streets. In it are the administration offices and on the ground floor is the College Street Circulating Branch.

The Central Circulating Library is at the corner of Church and Adelaide Streets.

There are branches on Yorkville Avenue; Queen and Lisgar Streets; Annette Street (Western); Broadview Avenue and Gerrard Street (Riverdale); 3-7 St. Clair Avenue E. (Deer Park); Bathurst Street and Melgund Avenue (Wychwood); 22 Albertus Avenue, near Yonge Street (Northern); on the corner of Bloor Street and Gladstone Avenue (Dovercourt); on Boon and Ascot Avenues (Earlscourt); on Queen Street East near Lee Avenue (Beaches); on the corner of Gerrard and Main Streets (Eastern), and on the corner of Roncesvalles and Wright Avenues (High Park).

In addition to these Branches there is a Municipal Reference Library in the City Hall, a branch of the Public Library.

The Reference Library and the Branches on Yorkville Avenue, Queen Street West, Annette Street and Broadview Avenue have been built through the generosity of Mr. Andrew Carnegie. New branch buildings in the Wychwood, Beaches and High Park districts were also erected in 1916 out of a supplementary grant of $50,000 from the Carnegie Corporation. The Dovercourt Branch building was erected in 1913 out of a special grant of $65,000 made by the City Council in 1911.

The Reference Library is open from 10 a.m. to 9.30 p.m.; the larger of the Circulating Libraries and Reading Rooms, 9 a.m. to 9 p.m.

At the Reference Library (St. George and College Streets) the Historical Room contains the famous J. Ross Robertson collection of engravings, prints and paintings illustrative of early life in Canada. This is the largest and most valuable collection of Canadian prints in existence, now numbering 3,715 pictures. The room is open to the public daily without charge.

This building also contains the unique collection of 214 water color pictures of game birds of early Canada, executed by William Pope, the gift of the late Mr. J. Ross Robertson. Also from the same generous donor a large and valuable collection of maps and plans dating from the first of the French explorations in Canada.

Buildings and Grounds.

The buildings on the grounds are seventy-three in number. The main group of twelve buildings, consisting of all permanent structures of steel, brick or concrete construction, are fine in architectural detail, and make a splendid

setting for an annual exhibition. The grounds, situated on the shore of Lake Ontario, and extending along the waterfront for upwards of one mile, comprise 264 acres, and form, when not in use for Exhibition purposes, a magnificent public park and playgrounds, affording facilities for every branch of sport and recreation. Since 1914 the buildings and grounds have been of splendid service to the military authorities as a winter mobilization centre, and, after the signing of the Armistice, as a demobilization centre, housing on one occasion over 8,000 men, together with horses, guns and full war accoutrement.

The following table shows the space area available for exhibits in the principal buildings:

Building.	Area in square feet.
Manufacturers	72,500
Machinery Hall	35,000
Industrial and Process	76,500
Art Gallery	7,000
Dairy Products	25,000

Other leadings buildings are: Administration, Live Stock Arena and upwards of two score other structures for the housing of cattle, sheep and swine; Dog and Cat building, and a Grand Stand 725 feet long with a seating capacity of 16,000.

The Exhibition has its own power and electric plant of 60,000 lamps, paved streets, telephone, telegraph, postal, custom house and banking services, together with a Police Station, Fire Hall, etc.

TORONTO AND YORK HIGHWAY COMMISSION.

(Appointed under 5 Geo. V., chap. 17.)

This Commission consists of five persons two appointed by the County Council of York and two by the City Council of Toronto and a fifth to be agreed upon by the persons appointed. Its duty is the improvement and maintenance of main suburban roads to be determined upon by the Commission. The cost is to be borne by the City, the County and the Ontario Government in the following proportions, 30% by the City, 30% by the County and 40% by the Ontario Government. The members and officers of the Commission are as follows:

Commissioners.

TORONTO AND HAMILTON HIGHWAY COMMISSION.

This Commission was appointed by the Ontario Legislature in September, 1914, to construct and maintain a permanent highway between the cities of Toronto and Hamilton.

The powers and duties of the Commission are defined by an Act of the Legislature (5 Geo. V., chap. 18).

The road is constructed of concrete 18 feet wide with earth shoulders three feet wide on either side and open ditches; but through all the towns and villages, by special arrangement

and at the expense of the local municipality, the road is built wider and has storm sewers and curbs the same as a city street. The City of Toronto contributes $250,000, or approximately one-quarter of the cost of the 40 mile road.

The members and officers of the Commission are as follows:—

Commissioners.

Geo. H. Gooderham, M.P.P., 49 Wellington Street East, Toronto, *Chairman.*

T. W. Jutten, 551 Wellington Street North, Hamilton.

Board of Harbor Commissioners.

The Commissioners, five in number, are appointed, three by the City Council and two by the Government of Canada, for the purpose of administering the harbor and developing the waterfront property owned by the City.

The powers and duties of the Commission are defined by an Act of the Parliament of Canada (1 and 2 Geo. V., chap. 26). The authority to the City of Toronto to convey land along the waterfront to the Commission is set out in an Act of the Ontario Legislature (1 Geo. V., chap. 119).

Since the formation of the new Board in the fall of 1911, the Commissioners have had plans prepared and approved by the City Council of Toronto and the Dominion Government calling for the expenditure of approximately $24,000,000, for the purpose of improving Toronto's waterfront, deepening the entire harbor and developing for industrial purposes the district known for many years as Ashbridge's Bay, which lies immediately east of the harbor and contains approximately 1,000 acres. Contracts have already been let for over $11,000,000.

Considerable progress has been made in the Ashbridge's Bay Industrial District. The reclamation of 200 acres of land there has been fully completed, and of these 158 acres have already been leased for industrial purposes, the leases being in most cases for a period of twenty one years, with renewal privileges. There wi

eventually be approximately 1,000 acres of reclaimed land, of which 740 acres will be available as industrial sites. The Commission will also have about 200 acres of sites for lease along the present harbor front and south of the proposed railway viaduct and adjoining or near the slips which are now under construction, 25 acres of which are now ready and 15 acres already leased. The general plan also includes boulevards, parks, bathing pavilions, beaches, restaurants, amusement parks, and all of the other attractions necessary for the beautification and enjoyment of a modern water front, but owing to the present conditions it is thought advisable to concentrate first on the completion of the industrial districts so as to provide sites for the industries which wish to locate in Toronto.

The members and officers of the Board are as follows:—

Commissioners.

Lionel H. Clarke, Royal Bank Building (Chairman).

Thomas L. Church, K.C. (Mayor), 98 Binscarth Road.

Robert S. Gourlay, 188 Yonge Street.

John Laxton, 1457 Queen Street West.

visor of Indoor and Outdoor Relief, and is the clearing-house for information with reference to the activities of all charitable agencies in the City.

Union of Canadian Municipalities.

This Union was formed in 1901 for the double purpose, first, of securing beneficial legislation, and, second, for safeguarding municipal interests generally throughout the Dominion. It is composed of delegates appointed by various municipalities having a membership in the organization.

The Union has a complete system of provincial branches and a large record of useful work to its credit. As a body it has been of far greater public usefulness than can be gathered from the history of merely actual measures which it has initiated or promoted. It has been a steady educator of public opinion, which, after all, is at the root of all progress.

The officers for the year 1918-19 are:

President, T. D. Bouchard, M.P.P., Mayor of St. Hyacinthe, Que.

1st Vice-President, Harold Fisher, Mayor of Ottawa, Ont.

2nd Vice-President, R. C. Marshall, Mayor of Calgary, Alta.

THE ONTARIO MUNICIPAL ASSOCIATION.

This organization, composed of delegates appointed by different municipalities throughout the Province, has been formed for the purpose of discussing important municipal topics and of promoting desirable municipal legislation. The delegates are either members or officers of municipal councils.

The annual meetings are held in Toronto, usually during Exhibition time.

The officers for the year 1918-1919 are:

President, George K. Dewey, Brockville.

Vice-Presidents, S. Baker, London; T. J. Moore, Guelph; C. R. Tuson, Windsor; Miss Mary Grant, London; E. M. Young, Picton.
